## **Keep It Pristine! What are the Brickyard Cart Path Rules?**

- ♦ The **90-degree rule** means that a **golfer** is supposed to drive their cart along the cart path until the cart has reached a point where a **90-degree** turn would cause the cart to drive laterally across the fairway directly to the ball. This rule applies to entering and leaving the cart path. This is fairly simple. Instead of going directly at the golf ball, you should follow the cart path as far as you can and then take a 90 degree turn directly to the golf ball. The idea is to minimize the amount of time your golf cart is on the fairway and rough, which minimizes the wear and tear on the turf. With the Covid-19 cart restrictions, there are more carts on the course and the traffic has doubled, so the cart rules need to be adhered to. In the long term, the decreased wear and tear on the grass makes it look nicer and more playable for everyone else. See the example above of the wear & tear on #17.
- ♦ **Park the golf cart on the cart path at the tee boxes and greens.** Cart traffic parking off the cart path creates worn areas that do not recuperate and they become an eyesore. An example of the violation of this rule is this picture on the next page at #10 tee box here at the Brickyard.

## Reciprocity Play & Brickyard Cart Path Rules

**If you are not participating in the Club Championship or the Macon Middle Georgia Championship in June, call the Pro Shop for a tee time at Southern Landings. We appreciate our partnership with them so Brickyard members can enjoy their golfing experience.**
