## Renovations-#14 Tee & Putting Green

# Golf Course News

During the month of June, our plans have changed on capital projects. We will still increase the size and shape of number 14 tee box, but will not continue adding stacked stone to number 7. Instead, we will be rebuilding and reshaping the large putting green. Even though this was done a few years back, the putting green has continued to struggle every year. This is mostly due to poor irrigation coverage and drainage issues. With the new green we will be relocating it slightly and re-shaping it. It will also go from 7 total irrigation heads to 12 heads. The surround of the putting green will receive new drain lines and will be sodded with Tif Grand Bermuda grass. The putting green itself will be sodded with Tif Eagle instead of sprigs for a faster recovery.

The other grass areas out on the course are really starting to pop. We preloaded the entire golf course in April with a slow-release fertilizer and now that the temperature and rain have helped the course in taking off. Fairways and Tees are being mowed at .500 or 1/2" and growth regulators have been applied with liquid fertilizer to tighten and thicken them up. Two weeks ago, we Dry-Jected sand into the greens and verti-cut them 6 times. We will verti-cut 2 more directions this coming week followed by double mowing and rolling. Greens are being mowed at .120 and new reels have been installed to one mower with the second mower to be completed this week.

Another capital project to be completed this year after the putting green and 14 tee box will be the cart paths. If you remember, we did some root pruning this off season to help stop more issues on paths from popping up. Now we need to remove and replace the bad raised areas of the cart paths. This will be done last, as we will have heavy equipment moving out to 14 tee. This way if any other areas are damaged, we can address them.

As always thank you for choosing the Brickyard and remember to repair all ball marks and fill divots.

The Brickyard Golf Club offers many benefits our members know and appreciate—an exceptionally maintained course, a welcoming facility, and a dedicated staff that enhances the overall experience. But one of our most valuable and sometimes overlooked assets is right here within our membership: our head golf professional, Derek Lafferty.

An accomplished golfer in his own right, Derek brings both expertise and approachability to every lesson. He has a unique ability to meet golfers where they are—whether you are just beginning or looking to fine-tune your game—and provides clear, constructive guidance that produces results. His easygoing style and consistent encouragement create a comfortable learning environment that makes improvement both attainable and enjoyable.

Equally important, Derek is flexible and works to accommodate members' schedules, making it easier than ever to invest in your game. If you have been looking for a way to sharpen your skills or gain more confidence on the course, time with Derek is one of the best resources available at Brickyard.

He is truly an asset to our club and a benefit every member can take advantage of.

**Home Schooled** tells the story of Stefan Merrill Block, who was pulled out of public school at age nine by his mother, who believed his teachers were “stifling his creativity”. His mother began instructing him at home in their living room, but beyond basic lessons in math, Stefan was largely left to his own devices, guided by his mother’s whims, such as bleaching his hair and putting him on a crawling regimen to recapture his early childhood. The memoir explores the complex, often intense relationship between mother and son, highlighting her all consuming love and challenges of his isolated upbringing.
